

Toxicity GLP Studies for PreVasive Botanical Disinfectant

EPA REGISTRATION NUMBER 90289-01

- Acute Dermal OCSP 870.1200 Category 4 (No Toxicity)
- Acute Oral Toxicity OCSP 870.1100 Category 4 (No irritation)
- Acute Inhalation OCSP 870.1300 Category 4 (No toxicity)
- Acute Skin Irritation OCSO 870.2500 Category 4 (No toxicity)
- Acute Skin Sensitization OCSO 870.2600 Category 4 (Not a sensitizer)
- Acute Eye Irritation OCSO 870.2400 Category 3 (“Minimal eye irritation”)
Caution

GLP

Explanation: Acute Eye Irritation OCSO 870.2400 (Category 3)
Information: Following Reference: STILLMEADOW Report
Laboratory Study ID No. 25861-22

“Based on the maximum average irritation score pervasive botanical disinfectant is rated minimally irritating. Since all positive effects cleared by 48 hours the test substance is assigned toxicity category 3. No irritation was observed in any eye at 48 hours.”

Study Director: Vincent A. Murphy 21 Oct 22
Date
Vincent A. Murphy, PhD, DABT
